

Life Is Amazing!

From the smallest unborn baby to the oldest person, all people have an amazing life! Each and every life has been "knit" together by the Creator of the universe. Each person has the incredible privilege to be loved by Him, and each has the awesome opportunity to love Him in return. Every human life is amazing, not because of our accomplishments, but because God created and cares for us.

Life Is Beautiful!

Every person God creates is not only amazing, they are also beautiful. Each life is an incredibly intricate creation that we are still far from understanding. From the tiny "power plants" of our cells to the wonderfully complex way our brains think, to the "inmost being" of our God-given souls, we are "fearfully and wonderfully made."

Life Is Precious!

Every life is amazing, every life is beautiful, and every life has value. God created each one of us with love and care, knowing our beginning and our end, even before we were born. No life He has ever made was a mistake, and everyone has value and worth. From the youngest baby to the oldest adult to all those in between, God sees every person as an amazingly beautiful, precious creation.

God's view of every human life is clear; but what about our own views? Do we see each person as an amazing creation loved and known by God? Do we realize the beauty He has built into our minds, hearts, and souls? Do we know the value that God gives to each one of His precious creations? And, when we see, realize, and know all that, what should we do?

Christ, God on Earth, has shown us the way. Love and care for each person regardless of age, strength, or social standing as He loved and cared for all. Protect the weak and show each person the value they have in God's eyes as He stood for the down-trodden and lowly. Give your time, your love, and your resources even as He gave His own life.

Will you help? Will you support groups in your community that help the unborn, support the elderly, hold up the down-trodden, or show God's love to those with special needs? Each person, born or unborn, young or old, with or without special needs, is precious to God, and should be precious to us in both word and action.
